AREAS OF EXPERTISE

EXPERIENCE

Software Engineer — BBC

Salford, Manchester

APRIL 2026 - PRESENT

- Enhanced Jenkins pipeline templates to support Python projects, improving build consistency and developer experience across teams.
- Contributed to a new enhancement of the BBC search functionality, leveraging ML models to improve entity recognition from user queries and boost search relevance.
- Deployed the new service using scalable infrastructure practices, utilising Elastic Load Balancing (ELB) and Auto Scaling Groups (ASG) to ensure reliability and performance under load.
- Built dashboards and configured alerts to monitor system health, helping proactively detect and resolve issues across the infrastructure and APIs.

Software Engineer — Creditsafe

Cardiff, Wales

MAY 2023 - MARCH 2026

- Architected and delivered cloud-native, full-stack applications using TypeScript/JavaScript, Node.js, React, and Redux, integrating RESTful APIs and scalable backend services (Python on AWS Lambda, C# .NET on EC2) to support thousands of users.
- Designed and maintained distributed backend systems and relational databases, improving reliability, performance, and long-term scalability across high-volume applications.
- Owned AWS infrastructure provisioning with Terraform and standardised CI/CD pipelines in Azure DevOps, reducing deployment times by 50% and improving release reliability across teams.
- Developed reusable SQL migration pipeline templates and other internal tooling, enabling development teams to streamline deployments and adopt consistent DevOps practices.
- Delivered robust, test-driven frontend and backend components, achieving 100% backend and 95% frontend unit test coverage.
- Led technical leadership by mentoring junior engineers, promoting adoption of new technologies, and driving company-wide knowledge sharing through technical forums to share engineering insights.

Software Engineer Intern — Certinia (Formerly FinancialForce)

Harrogate, England

JUNE 2022 - AUGUST 2022

- Gained hands-on experience with DevOps practices, supporting infrastructure maintenance and optimisation.
- Automated Jira ticket creation using Groovy scripts to process security alerts.
- Developed internal tools in TypeScript to streamline development workflows and improve team efficiency.
- Assisted with downtime management and version upgrades, helping ensure minimal disruption to production systems.
- Gained exposure to Terraform for managing infrastructure as code in a cloud environment.

EDUCATION

BSc Applied Software Engineering — Cardiff University

Cardiff, Wales

SEPTEMBER 2020 - JULY 2023

Obtained: Second Class Honors Division One

Modules:

- Cyber Security
- Commercial Applications with Java (Springboot)
- Agile Project Management
- Performance and Scalability (JMeter)
- DevOps (CI/CD, Linux, Jenkins)
- Mobile Development (Java, Flutter)
- Commercial Frameworks, Languages and Tools (React.js, Node.js)
- Database Management (MySQL)

CERTIFICATIONS & AWARDS

Certificate of Excellence | Special Recognition Award — Creditsafe

ISSUED: SEPTEMBER 2025

AZ-900: Azure Fundamentals — Microsoft

ISSUED: JUNE 2022

PROJECTS

GetMeServed — Side Project

MAY 2024 - PRESENT

- Tech stack - WordPress, React.js, TypeScript, Terraform, GitHub Actions, AWS (Step Functions, Lambda, S3, CloudFront, Route53)
- *Private repository*

FIT-IN — Side Project

FEBRUARY 2024 - APRIL 2025

- Tech stack - Python, Flutter, Dart, Terraform, GitHub Actions, AWS (Lambda, API Gateway, RDS Postgres, Route53, CloudFront, VPC, Cognito, S3, SSM, CloudWatch)
- *Private repository*

Personal Portfolio — Individual Project

JULY 2023 - JANUARY 2024

- Tech stack - React.js, TypeScript, Docker, GitHub Actions, AWS (S3, CloudFront, Route53)
- Visit www.abdulmiah.com
- <https://github.com/AbdulMiah/Portfolio>

InStock App — Group Project

FEBRUARY 2023 - MAY 2023

- Tech stack - C# .Net, Flutter, Dart, Docker, Firebase, AWS (EC2, S3, DynamoDB)
- <https://github.com/AbdulMiah/InStock>

Please note that further projects are available on my [LinkedIn](#) or [portfolio](#).
